LOKE

CREATE A STADIUM ATMOSPHERE AT HOME!

Loke has a width up to 350 cm either in TabTension or as normal wall/ceiling. Here we offer the largest range of fabric options of all our product-series. You have the option of case color in either white or antracit and still Loke is offered at the same price. The enhanced bracket technology will simplify the installation and give a flexible adjustment when needed. The choice of picture-format in combination with a true matt black border finish creates a powerful framework for the projected image.
