

DRAPER - ER &  
APP CONTROL

## SMART CONTROL VIA APP (SMART HOME)

Draper's motor and control range are constantly updated with new features and challenging designs. Our focus is to provide well-proven technology, packed in our unique way. Our way into the digital home is through "DRAPER-ER & the possibility of APP control ". With APP control you have the opportunity to program and control both interior & exterior Window Shades from Draper's assortment. The possibilities do not stop with our shades, you can also control your projection screen using the SMART HOME app.

DRAPER - ER

## SMART HOME

Simplify the integration in the home and control all our products via your phone. SMART HOME becomes the central point for checking your products. You can also put together scenario how your Draper products should act.

# SMART WINDOW SHADES DRAPER APP CONTROL

With SMART HOME we give you the opportunity to optimize the use of window shades and create smart solutions.

You have the opportunity to control your shades wherever you are and take control of the sun in your home. Set up favorite settings scenarios for your interior & exterior drapery products. Enjoy all the amenities that Draper SMART HOME can give you to make your life easier.

A young man and woman are smiling and looking at a smartphone together outdoors. The man is holding a camera. The background is a blurred city street with buildings and a body of water.

The SMART HOME APP helps you keep track of all your Draper Products wherever you are!

*Draper Europe AB is a Halmstad company that works with the development, design and manufacture of Window Shades*

*and audiovisual products for commercial and private use.
